Permission

The tools are no longer the bottleneck. Permission is.

You can build a product on a laptop, find customers on WhatsApp and draft a pitch with AI before lunch. What most first-generation founders lack is rarely skill or capital. More often, it is the inner permission to begin. Kautilya wrote that energetic action is the root of prosperity. Here is how to find out where your fear is louder than your pulse.

TRY THIS TONIGHT · THE FEAR AUDIT

#	ASK	WRITE THE HONEST ANSWER
1	My loudest fear	Shame, stability, competence, money, network, timing, or deserving?
2	The real worst case	Not the 3 am version. The realistic one.
3	If it happens, I will...	The specific recovery plan.
4	My financial floor	The exact monthly ₹ I need, and how it is covered.
5	One action this week	The smallest step that makes the fear smaller.

INSIDE THE FULL MANUAL · 43 PAGES

- The Seven Fears, the twelve-question Spanda Audit and a weekly intelligence rhythm
- Kautilya's seven limbs as a pitch framework, and a protocol for the dark months
- Paths for first-time, solo, side-project, second-time and social-enterprise founders
- AI prompts, worksheets, a Founder Profile and a 90-day plan
